Convivial tour

Group tour for 1 to 12 people (larger groups on demand)
From Tuesday to Saturday – by appointment only
Last: approx. 1h15
Fees: 8€/pers.

Formerly the heart of a fortified farm, the château dates from the 13th century. Everything leads us to believe that the Aiguilhe seigneurie was vast, with several large fiefs. Located on the frontier between areas occupied by the French and English during the Hundred Years' War, the château had a major strategic role ... Today, the estate covers 140 hectares, including 90 planted with vines. The vines grow exclusively on the plateau, where they benefit from a beautiful Terroir which, combined with the knowledge of our Team, ensures remarkable conditions for producing quality wine.

This tour, which blends History and explanations about the Terroir, will help the visitor to understand what makes a wine unique. Combined with the discovery of the vatroom and the remarkable aging cellar, this very rich tour will be ended by a tasting of two wines from Château d'Aiguilhe in our new tasting room / shop.
